DR. BANNING'S BODY BRACE.—Thousands of persons afflicted by pulmonary affections, dyspepsia, constipation, and various degrees of local or general debility, have been relieved by this instrument. It is particularly adapted to numerous aliments prevalent at the south, to spinal weakness, distortions, a tendency of the body to lounge and droop, both in children and adults. By restoring the form to an erect postare, it enlarges the chest, so that the subject breathes freer and easier, and thus many contractions of the chest, with attendant affections of the heart and lungs, are counteracted, and full play is given to the organs of respiration.

The brace may be had in this city by applying to Mrs. Baldwin, who will be in attendance at all times over the store of Mr. Peter Brenner, tailor, two doors below 44 street, on the north side of Pennsylvania avenue. A gendleman will aid in adapting it to those who may call for the purpose.
